Profile

As a highly motivated and creative 3D, Video and Digital Designer, I bring a wealth of experience in both creating original designs and bringing client visions to life. Drawing from my family's background in interior design, I have a deep passion for the creative process and bringing spaces to life through animation and visual effects.

I excel at working both independently and as part of a team, and I am comfortable taking the lead on projects or collaborating with others to achieve a common goal. My calm and level-headed approach allows me to thrive in high-pressure situations, and I am always ready to tackle any challenge that comes my way.

Whether I am hand drawing or using cutting-edge software to bring video concepts to life, I am passionate about delivering beautiful and functional designs. With a curious and ambitious mindset, I am always exploring new ways to push the boundaries of what is possible and deliver outstanding results for my clients
